NOTICE.—Any person who uses any bridge on or about the property of His Majesty in connection with the movement of any steam engine will be held responsible for any damage done as provided for in S 861 of the Public Works Act.—A. McNaughton, Secretary, L.I.D. 10-A-5.

The members of the Beethoven Club regret that owing to the small attendance and the low admission fee charged at the recital, there will be no balance left to augment the library fund. The expense of hall, piano, and printing alone, exceeded the total amount realised. The expenditures and receipts have been audited and a full statement placed in the hands of the secretary of the Library Board.

Representative Coming

We are in receipt of a communication from the office of C. P. Walker, of the Walker Theatre, Winnipeg, stating that his representative would be here in a few days to interview a number of our leading citizens relative to a production of "As You Like It," which Manager Walker is sending through the West. As this is the most delightful of all the Shakespearean comedies, and is to be given by practically an all star cast with a most elaborate scenic and costume equipment. It is hoped that arrangements can be concluded for an engagement here. If the opinion of those interviewed is favorable and sufficient interest is shown, a subscription list will be circulated and if enough patronage is assured the production will appear here in the near future.

Grand Musical Recital

The Musical Recital held by the Members of the Beethoven Club (Pupils of Miss Lackner) on Friday night last, was in the true sense of the word, a great success. It is to be regretted that there were not more people present, not only for the sake of the recital itself, but for the worthy object to which the proceeds, over and above expenses, were to have gone, viz the Didsbury Public Library. As it was the recital was first class, some of the choicest selections of classical music being included in the programme. The hall was very prettily decorated for the occasion, with flags and bunting. On each side of the stage were two large Union Jacks and right across the arching was (luminous with the words "Welcome to the Beethoven Club.") Miss Lackner is to be congratulated on having been able to present such a varied and splendid programme from her own pupils. As said before the recital was, in the true sense of the word, a great success.

One Candidate out for the Mayoralty

Until the beginning of the week
there had not been anybody who
signified their wish to become
mayor of this thriving town.
there were rumors and suggestions
but as far as definite statements
were concerned there has only
been one made and that comes
from Mr. O. W. Hembling, a
present member of the council who
has been chairman of the finance
committee and a leading member
of the Board of Works during
the past term.

While it is too early yet to say
anything about the probable candi-
dates at the coming elections, a
word or two about the one who
is out perhaps is not out of place.
Mr. Hembling has filled the
position of councillor for the
town during the last two years,
previous to that he was a member
of the School Board for two
years and during his whole term
of office on both boards has
shown himself an energetic and
painstaking official. True he
has made mistakes—who has
not—but taking his services all
around it is doubtful if any pre-
vious member of either board has
ever given his time and efforts
for the good welfare of the town
so freely as he. His work as a
member of the Board of Works,
anybody who takes any interest
in the appearance of the town
can readily see. While he was
not chairman of this board, he
has been of the greatest assistance
to the chairman who was
unable to be in town as much as
he wished, consequently Mr.
Hembling has had a great deal
to do with all the public works
that have been undertaken this
year. As it has been stated be-
fore it is a little early yet to talk
about candidates for the different
boards, but a great many of the
ratepayers feel that Mr. Hembling
is entitled to the position as
Mayor of the town of Didsbury.

Knows Nothing About Resigning

Nelson, B. C., Nov. 7.—“A man in
my position never knows when some-
thing may happen, but so far as I am
personally aware, there is no basis for
the rumor,” was the significant reply
of Hon. W. H. Cushing, minister of
public works for Alberta, when asked
as to the truth of the report that he
was likely to leave the government.

Mr. Cushing arrived here to take
part in the laymen's missionary cam-
paign in Kootenay. He spoke in
Rossland on Monday, and was one of
the principal speakers at the banquet
in connection with the movement in
Nelson on Monday night.

MUNICIPAL BILL
Asked regarding the legislative pro-
gramme of Alberta for the coming ses-
sion of the legislature, Mr. Cushing
said the bill of the session will be one
to provide a finished plan of municipal
government. There will be no railway
bills, as we have already gone as far in
that regard as we care to go at present.

ALL FAVOR A.B.C. ROUTE
“There is only one mind in Alberta
on the grain export question, and that
mind agrees with that of British Col-
umbia. The people of Alberta are
unanimously of the opinion that the
way to send their grain to the British
market is via Victoria Columbia ports,”
he said.

H. B. ROUTE OF THE FUTURE

“The Hudson's Bay route,” con-
tinued Mr. Cushing, “is of the future.”

The British Columbia route is of the
present. Another point is that the
British Columbia route is always avail-
able winter and summer alike. The
Hudson's Bay will not be able to com-
pete in that regard. Every fall, when
navigation closes on the great lakes,
the price of wheat drops about 5c, and
the Pacific route is then very attractive.
Assuming that the Hudson's Bay route
comes into commercial use in the next
few years, I do not see how it will suc-
cessfully compete with the Pacific
route, via the Panama canal, so far as
Alberta is concerned.”—Calgary Her-
ald.

Sunday School Associa- tion Day

The Alberta Sunday School Con-
vention in Edmonton last week, scored
a great success. The attendance from
outside points was about three hundred
delegates. All were delighted with
the program. The effects of the gath-
ering will reach almost every district
of the province.

The Alberta Sunday School Associa-
tion is asking every School to observe
Association Day on Sunday, Nov. 7,
or as soon thereafter as possible. Pro-
grams for the day have been prepared
also offering envelopes which may be
obtained free of charge from the Gen-
eral Secretary, H. F. Kenny, Calgary.

The proceeds of this day will be
used in extending the benefits of the
Association to every School in the
Province. It is a worthy object and
the Schools will do well to assist in it
with a liberal offering.

Making \$5,000 a year from Poetry

It is a common belief that poetry
doesn't pay. Verse-making is nowa-
days considered by most people as a
waste of time. Magazine editors will
accept a few choice poems from well-
known poets, but any other aspiring
singers must perforce pay to have their
work put into type. The spectacle of
a poet living on the proceeds from the
sale of his verse is as rare as it is re-
markable. Yet there is actually in
Canada a young poet who is making
enough money annually from the sale
of a few poems to yield him an ex-
tremely nice income. It was only the
other day that a cheque for \$5,000 was
mailed to Robert W. Service, the poet
of the Yukon, to cover royalties on his
two books of verse. “Songs of a
Sourdough,” and “Ballads of a Chee-
chako,” for the past twelve months.
Our other Canadian poets may well
look upon this achievement with envy
and despair. Some interesting particu-
lars about this young genius appear in
the November Busy Man's Magazine.

The Morals of the Kootenay

Since fruit-growing has been introduced into the Kootenay, the morals of the place have been elevated, according to Edgar William Dines, who contributes an excellent article to the November Busy Man's on the subject. In the old days most of the towns had the lid off and a hot fire in the furnace all the time. It had the habit of breaking the hearts of more sky pilots than any stretch of ground in Northern America. An M.A., B.D., came out from the east to take charge of a church in a wide-open smelter town, but the devil went out in the first round, for the eloquent divine boarded the eastern train before the sunset of the second day. Another high-strung, sensitive chap tried to stay, but could not stand the pressure at all—he lost his bearings completely, insane is the common word—and it is only of late years that he is back—his old dashing self. One of the first in a new fruit settlement is the service in the school-house, and, a little later, the neat frame church. Sometimes the saloon man comes along with a petition to get a saloon license. But he gets few signatures. And he is no sooner gone than a counter petition is filed. There is nothing of the free-and-easy about the new, the dawning, era in Kootenay. Just recently an enterprising individual, who acts as station agent in a little fruit-growing community for a living, and speculates in almost everything else on the side, got a bright idea. He thought of building a hotel, supposedly to house the travelling public, but really to make a fortune in selling thirst-quenchers to the good folk of the valley. He got out a petition in support of his bright idea, but the fruit-growers, thinking differently, got out another twice as big. No public house in their fair valley, they said. They would never have their boys drink anything stronger than apple cider. That settled it. There are no whisky bottles on the shelf behind the lonely bar and no stupid toppers in the doorway. This is the Kootenay of today.

Christian Workers Convention of the Evangelical Association

Edsburry, Nov. 7th.—A very successful and inspiring convention of the Christian workers of the Evangelical Association, was brought to a close last night, (Tuesday). The convention which opened on Wednesday, Nov. 3rd, was the first of this nature held in the province. The ministers together with some delegates of the various fields were present. Rev. L. H. Wagner presiding. Elder and Supt. of Missions was also present and greatly aided in making the sessions a source of edification and spiritual uplift. One feature which especially marked the session was the spirit of evangelism, and a deep desire for the salvation of souls.

Among the many important subjects discussed, were, the 24th Present Day Missionary

Movement "treated most ably by the Presiding Elder Rev. L. H. Wagner. "The Religion of our Young People to Temperance," by the Rev. J. S. Dunn of Medicine Hat, "The Young People and their Bible," by Rev. A. T. Nash of Warner. "The Supreme need, Consecrated Workers," by Rev. W. Wilhelm of Medicine Hat, and "Alberta and the Young People" by Rev. M. Weber of Didsbury. Other able addresses were given by Miss Sigmire, Mrs. J. S. Dunn and others.

The morning session of each day was exclusively ministerial, in which vital subjects in connection with the extension of the work, and the preparation and conduct of the Pastor, in and out of his Parity were discussed. Rev. C. S. Finkbeiner, pastor of the Didsbury Congregation, and who planned and managed the convention deserves great credit for the successful issue of the same.

"For the glory of God and the good of man" is the motto of the Convention. Where the Convention will be held next year was left in the hands of a Committee to be announced later.

Halter Pulling

When a horse pulls back, a good way to break him is to put a strong head halter on with a good strap or rope. Put rope over pole at top of manger and down to front foot. Buckle strap with ring in it above hoof and below fetlock. The halter in ring so horse will have about usual length from head to manger. When horse pulls back, he will pull the front up and one or two trials is all he will attempt.—Farm Crops.

Threshed and Sowed Fall Wheat

Mr. Reynolds, a farmer in the Clover Bar District, east of Edmonton, established a record for Northern Alberta. He was the first to harvest fall wheat in this locality, and found that fall wheat seed was hard to secure in time for sowing. Not wishing to delay too long, he decided to thresh the grain recently harvested. The threshing outfit was accordingly run into a five acre field and threshed. The wheat is one of the Clawson's Red variety, and gave an average of 35 bushels to the acre. The grain was of excellent quality.

So far as records show, this was a feat never before accomplished in Northern Alberta, it being the prevailing custom to hold the seed over for one year, thus limiting considerably the acreage sown. Fall wheat has formerly been an experiment, but since the success of so many farmers with fall wheat the last two years, farmers have been falling over themselves to get seed. A large acreage was sown in Northern Alberta, this year, the majority being small fields of from 5 to 20 acres.—Farm Crops.

McClary's Fuel-Saving Scheme

Sask-Alta Double Duplex Grates will save you fuel.

Grates are separate, as shown in illustration. This allows ashes to be removed from one end of fire-box without disturbing fire in other end.

And saves fuel—as frequently there are more ashes in one end of fire-box than in other. When ordinary long grates are used good coal in one end of fire-box is shaken down with ashes in other.

Remember this feature is patented. Therefore Double Duplex Grates are to be found only on Sask-Alta Steel Range.

Montreal versus New York

It is stated that New York Grain
dealers are much exercised over the
diversion of the grain route from that
city to Montreal. The tendency
which attracted the attention of deal-
ers last year has been still more pro-
nounced this season. There is an in-
clination to put the blame on the
western United States railroads, whose
rates are just high enough to enable
the combined Canadian water and
rail route to cut under them.

As a matter of fact, physical geo-
graphy is the deciding factor. The
Canadian route, with its great natural
water stretches, of which the railroads
are availing themselves to a greater
degree than ever, must prove the vic-
tor in the long run. Even in its pre-
sent state of preparedness the Cana-
dian route is exerting its superiority, and
it is quite certain that it has by no
means reached its full efficiency. The
St. Lawrence and great lakes and
Hudson's Bay are the predominant
physical features of the North Ameri-
can continent, and Canada is the
trustee for them both. It is her duty
to develop them. Commercial.

Strong Words on Cash Business

A retail dealer who sell for cash is
very pronounced about the Cash sel-
ling versus Credit. He says: "The
secret of our success in merchandising
has been strict attention to business,
buy for cash, sell for cash, advertise.
A merchant who cannot pay spot cash
for his goods would do better to buy
or rent a farm. A merchant who can-
not say no firmly and pleasantly with
a smile that will not come off when
asked for dubious credit had better
look for a job on a railroad. We
would rather run a peanut stand and
own it, than to run a department store
where we were watching one door
for the sheriff and the other for a
creditor. A proprietor who has to
watch both doors cannot be in a suit-
able frame of mind to wait on trade
or to handle his corps of clerks. We are
a small concern, yet in our twelve
years of business our discount account
shows a balance on the right side of
ledger of \$7,111.79, besides we esti-
mate that we have saved \$10,000 by
being known as cash buyers or job lot
buyers when we can find the goods we
can use at a price."—Commercial.

It Pays to Advertise

Many country merchants do not see
their way clear to advertise in their
local papers. Whether they believe in
advertising or not, they cannot get
away from the fact that it is by ad-
vertising that the catalogue houses secure
so much of the rural trade. The
Moose Mountain Star puts the matter
in suitable terms when it says that if
the people who trade at a distance are
induced to do so by advertising, by
the same logical sequence, those
very people could be induced by ad-
vertising to trade at home. It is the
people that pay attention to advertis-
ing that are induced though that very
agency to deal away from home.
Naturally those are the people who
would read the home advertising if
they were presented to him right.
